Just brought Jeremy up to speed about this.

I might suggest asking the Secs and their staff to answer the questions as well. My guess is they have clear and correct answers to some but not others - and we can ask Jeremy to focus on the muddy ones.

Subject: ACP

Friends,

Please REPLY ALL with your questions about the pipeline. We're aiming to give the governor the best rationale for his decision that we can. If possible, please send your questions by the end of the day today.

We're deputizing Jeremy Tarr to get our questions answered in the next week or so. Then we'll regroup and try to craft sharp pro's and con's for the governor's consideration.
